

**Chemical methods of uranium separation from
unconventional resources with regard to selected aspects
of the nuclear cycle**

Katarzyna Kiegiel, PhD

Institute of Nuclear Chemistry and Technology

Centre for Radiochemistry and Nuclear Chemistry

Attachement 6

LIST OF SCIENTIFIC OR ARTISTIC ACHIEVEMENTS WHICH PRESENT A MAJOR
CONTRIBUTION TO THE DEVELOPMENT OF A SPECIFIC DISCIPLINE

Warsaw, April 2023

I. INFORMATION ON SCIENTIFIC OR ARTISTIC ACHIEVEMENTS SET OUT IN ART. 219 PARA 1. POINT 2 OF THE ACT

1. Scientific monograph, pursuant to art. 219 para 1. point 2a of the Act – not applicable
2. Cycle of scientific articles related thematically, pursuant to art. 219 para 1. point 2b of the Act

[H1] K. Frackiewicz, **K. Kiegiel***, I. Herdzik-Koniecko ,E. Chajduk , G. Zakrzewska-Trznadel, S. Wolkowicz, J. Chwastowska , I. Bartosiewicz, *Extraction of Uranium from Low-grade Polish Ores: Dictyonemic shales and Sandstones*, NUKLEONIKA, 2012, 58(4), 451-459.

LECTURES AND SEMINARS DELIVERED OUT OF INCT

(*that were delivered by dr. K. Kiegel*)

1. K. Kiegel A. Miskiewicz, I. Herdzik-Koniecko, L. Fuks, G. Zakrzewska-Kołtuniewicz, A.G. Chmielewski, *Triso Fuel Management Depending on the Choice of the Fuel Cycle - Research Currently Conducted at INCT in Poland*. Technical Meeting on Back End of the Fuel Cycle Considerations for Small Modular Reactors, 19-24 September 2022, Vienna, Austria.
2. G. Zakrzewska-Kołtuniewicz, L. Fuks, K. Kiegel, A. Miskiewicz, I. Herdzik-Koniecko, *Management of Wastes Containing Long-lived Alpha Emitters: Characterization, Processing and Storage, Annual Progress Report*. Third Research Coordination Meeting for "Management of Wastes Containing Long-lived Alpha Emitters: Characterization, Processing and Storage", 12-15 October 2021, Vienna, Austria.
3. K. Kiegel, D. Gajda, G. Zakrzewska-Kołtuniewicz, *Recovery of uranium and accompanying metals from various types of industrial wastes - Current status of the project*, Third Research Coordination Meeting (RCM) on Uranium/Thorium fuelled High Temperature Gas Cooled Reactor Applications for energy neutral and Sustainable Comprehensive Extraction and Mineral Product Development Process, 2-6 July 2018 Vienna, Austria.
4. K. Kiegel, G. Zakrzewska-Kołtuniewicz, M. Brykała, A.G. Chmielewski, *Research on an Advanced Fuel Cycle on-going at INCT and Perspective of Fuel Management in Poland*, Technical Meeting on Advanced Fuel Cycles to Improve the Sustainability of Nuclear Power through the Minimization of High Level Waste, 17–19 October 2017, Vienna, Austria.
5. K. Kiegel, D. Gajda, G. Zakrzewska-Kołtuniewicz, *Secondary raw materials as a potential source of uranium and accompanying metals*, Second Research Coordination Meeting (RCM) on Uranium/Thorium fuelled High Temperature Gas Cooled Reactor Applications for energy

neutral and Sustainable Comprehensive Extraction and Mineral Product Development Process, 3-6 July 2017, Vienna, Austria.

6. K. Kiegiel, G. Zakrzewska-Kołtuniewicz, D. Gajda, H. Polkowska-Motrenko, *Recovery of uranium and accompanying metals from various type of industrial waste*, 1st RCM on Uranium/Thorium fuelled High Temperature Gas Cooled Reactor Applications for Energy Neutral and Sustainable Comprehensive Extraction and Mineral Product Development Processes, 2-5 November 2015, Vienna, Austria.

7. K. Kiegiel, G. Zakrzewska, *Licensing framework in Poland*, ARCADIA 1st Technical Meeting - Arcadia Project, 11-13 June 2014, Bologna, Italy.

8. Information on participation in organizational and scientific committees at national or international conferences, including the applicant's function.

1. NUTECH-2020 International Conference on Development and Applications of Nuclear Technologies, 4-7 October 2020, Warsaw, Poland, **member** of the organizing committee.

2. Meeting “Mental models of ionizing radiation as a tool to build communication with the public – evaluation of research carried out within the EAGLE project”, 27 January 2016, Warsaw, Poland, **member** of the organizing committee.

3. Seminar “Selected Aspects of Implementation Of Gen III/IV in NMS” In the frame of the FP7 Programme “Assessment of Regional Capabilities for New Reactors Development Through an Integrated Approach (ARCADIA)”, 1 October 2015, Warsaw, Poland, **chairman** of the organizing committee.

4. 2nd Annual Arcadia Meeting, 29-30 September 2015, Warsaw, Poland, **chairman** of the organizing committee.

5. Seminar “The use of mathematical models to study the socio-economic effects of the implementation of the Polish Nuclear Power Programme” in the frame of the project “studying the social and socio-economic effects of the implementation of the Polish Nuclear

Power Programme using new methodology” IAEA CRP 18541/RO), 31 July 2015, Warsaw, Poland, **member** of the organizing committee.

6. Meeting “Mass media and the information regarding the implementation of the Polish nuclear power programme” in the frame of the project EAGLE (Enhancing Education, Training and Communication Processes for Informed Behaviors and Decision-Making Related to Ionizing Radiation Risks), 2 July 2015, Warsaw, Poland, **member** of the organizing committee.
7. Meeting “Mass media and communication: building a national dialogue. Dialogue in Poland” within the EAGLE project – Enhancing Education, Training and Communication Processes for Informed Behaviors and Decision-Making Related to Ionizing Radiation Risks), 9 July 2014, Warsaw, Poland, **member** of the organizing committee.
8. Meeting “Mass media and communication: building a national dialogue. Dialogue in Poland” within the EAGLE project – Enhancing Education, Training and Communication Processes for Informed Behaviors and Decision-Making Related to Ionizing Radiation Risks), 29 May 2014, Warsaw, Poland, **member** of the organizing committee.
9. Project meeting no 2 within the PLATENSO project – Building a Platform for Enhanced Societal Research Related to Nuclear Energy in Central and Eastern Europe, 12-13 May 2014, Warsaw, Poland, **member** of the organizing committee.
10. Scientific Seminar on “Analysis of the Possibility of Uranium Supply from Domestic Resources”, 19 November 2013, Warsaw, Poland, **member** of the organizing committee.
11. Expert group meeting within the FP7 EU project NEWLANCER (NEW MS LINKING FOR AN ADVANCED COHESION IN EURATOM RESEARCH), 28 February 2013, Warsaw, **member** of the organizing committee.

9. Information on participation in the works of research teams realizing projects financed through national and international competitions, including the projects which have been completed and projects in progress, and information on the function performed in the team.

ONGOING PROJECTS:

- (2022-2025) ERA-MIN 3, EU co-funded ERA-MIN “Phosphogypsum Processing to Critical Raw Materials” PG2CRM, **team leader at INCT**
- (2022-2025) HORIZON-EURATOM-2021-NRT-01-05 Type of Action: EURATOM-RIA: „GEMINI For Zero Emission” GEMINI 4.0), **team leader at INCT**
- (2022-2024) Mobility project *BeeWatch/Using Honeybees, Honey and Other Hive Products for Biomonitoring of Low-radioactive Phosphogypsum Tailings*, finansowany przez the German Federal Ministry of Education and Research (BMBF), **contractor**

COMPLETED PROJECTS:

After the award the PhD degree:

- (2019-2022) IAEA Research Contract No 23022 Management of radioactive organic waste containing long-lived alpha emitters, IAEA’s Coordinate Research Project T13017 Management of wastes containing long-lived alpha emitters: characterization, processing and storage, **contractor**
- (2019-2022) National Strategic Programme GOSPOSTRATEG „Preparation of legal, organizational and technical instruments for the HTR implementation”, **contractor**
- (2018-2019) COST nr ES1407: "European network for innovative recovery strategies of rare earth and other critical metals from electric and electronic waste (ReCreew)" **member of Management Committee**
- (2015-2019) IAEA Research Contract No. IAEA-RC-18542 Recovery of uranium and accompanying metals from various types of industrial wastes, IAEA’s Coordinate Research Project T11006 entitled “Uranium/Thorium Fuelled High Temperature Gas Cooled Reactor Applications for Energy Neutral and Sustainable Comprehensive Extraction and Mineral Product Development Processes”, **team leader at INCT**

- (2015-2019) International Projects Co-Funded by the Ministry of Science and Higher Education, Recovery of uranium and accompanying metals from various types of industrial wastes, **team leader at INCT**
- (2014-2015) Innotech Projects Granted by the National Centre for Research and Development, Conspan BlueGas – technology for treatment of flowback fluids from gas-bearing shales hydraulic fracturing with water recycling and reclamation of valuable metals, **contractor**
- (2013-2016) FP7 – Assessment of regional capabilities for new reactors development through an integrated approach (ARCADIA), **contractor**
- (2011–2013) POIG 01.01.02-14-094-09-00 „Analysis of the possibilities of uranium supply from domestic resources”, **contractor**

Prior to the award the PhD degree:

- (1995-1999) KBN nr 3 T09 A 011 12 – Research grant (supervisor project) "Use of N-glyoxyloyl derivatives of (2R)-bornane-10,2-sultam in asymmetric additions of organometallic compounds to the carbonyl group", **contractor**

10. Membership in international or national organizations and scientific societies, including the functions performed by the applicant.

- Polskie Towarzystwo Nukleoniczne (Polish Nuclear Society) - **member**
- WiN Poland - **member**
- Rada Naukowa IChTJ (INCT Scientific Council) - **secretary of the Scientific Council** since 2014
- EGRM (UNECE) - **member of the Expert Group on Resource Management** (2019-2024)

11. Information on internships completed in scientific or artistic institutions, also abroad, including the place, time and duration of the internship and its character.

After the award the PhD degree:

1. Scientific internship within the project Modern spent fuel DISolution and chemistry in failed COnainer conditions, Grant Agreement: 755443- (DisCo - JRC In-situ Individual Training 2019, 11 November– 6 December 2019, Karlsruhe, Germany

Hosting unit JRC.G.III.8 – Waste Management, project coordinator: P. Carbol, PhD; supervisor: D.Papaioannou, PhD

During the internship, I got familiar with the currently conducted research in the field of non-destructive characterization of spent nuclear fuel.

2. World Nuclear University Summer Institute 2019; 23 July-27 June 2019 Bucharest Romania, (3 weeks) Switzerland, Baden, (2 weeks). The WNU Summer Institute provided intensive training, during which i met the full spectrum of issues surrounding nuclear energy a Lectures and training were conducted by world's foremost experts and leaders in the field of science, engineering and nuclear business. In addition to lectures, there were numerous practical workshops, interactive platforms and visit to nuclear facilities. The training was an opportunity for me to develop leadership, communication, planning and organization skills, but also to work in a team of specialists from different countries.

3. Scientific internship: 31 March -5 April 2019, Laboratorium Analiz Promieniotwórczości, The H. Niewodniczański Institute of Nuclear Physics Polish Academy of Science, Cracow, Poland – superviser prof. dr hab. Jerzy W. Mietelski. During the internship, I was trained in the preparation of samples for alpha analysis. These were practical works and discussions. A week-long internship allowed me to meet with the "know-how" of the laboratory headed by prof. dr hab. Jerzy W. Mietelski

4. The scientific trip of IChTJ employees to nuclear facilities in France, Program: Visit CEA Marcoule, Visit the Atalante installation, Visit the Tricastine Nuclear Power Plant and the Fuel Enrichment Plant 13-17 November 2011.

The visit to nuclear facilities in France was a practical training on the functioning of facilities related to nuclear power, safety rules, protection against radiation and radioactive waste management.

5. Postdoctoral contract, University of Kentucky, Department of Molecular and Cellular Biochemistry, Lexington, KY USA, supervisor: prof. H Peter Spielmann, 1 April 2000 -31 July 2001

I joined to the group realizing a project on the study of biological activity of farnesyl pyrophosphate analogues. My task was to synthesize FPP derivatives. The results of these works are two articles published in 2002 (Journal of the American Chemical Society) and 2004 (Bioorganic and Medicinal Chemistry Letters), in that I am a co-author.

Prior to the award the PhD degree:

1. Internship at Institute of Organic Chemistry Polish Academy of Science: July 1 – September 30 1995, Warsaw, Poland, Poland supervisor prof. dr hab. Janusza Jurczaka

My work was related the organic synthesis. I cooperated with experienced scientists dealing with the subject of stereocontrolled organic synthesis.

2. III Zimowa Szkoła Nowoczesnej Chemii Organicznej (III Winter School of Modern Organic Chemistry) orginized by Institute of Organic Chemistry Polish Academy of Science, February 28 – March 5 1994, Szczyrk, Poland - student

The participation in the training allowed me to familiarize myself with selected issues of organic chemistry, e.g. modern methods of organic synthesis, planning of synthesis, application of modern spectroscopic methods to determine the structure of molecules of organic compounds.

12. Membership in editorial committees and scientific boards of journals, including the functions performed by the applicant (e.g. editor-in-chief, chairman of scientific board etc.).

- Guest Editor Special Issue Energies, MDPI "Storage and Disposal Options for Nuclear Waste"

*Editorial: K. Kiegiel**, Storage and Disposal Options for Nuclear Waste, ENERGIES 2022, 15(13), 4665. <https://doi.org/10.3390/en15134665>

- Guest Editor Special Issue Energies, MDPI " Storage and Disposal Options for Nuclear Waste II" - deadline for manuscript submissions 30 June 2023.

13. Information on scientific or artistic works reviewed, in particular those published in international journals.

Journal	Number of reviews done
Journal of Radioanalytical and Nuclear Chemistry	10 reviews
Nukleonika	2 reviews
Polyhedron	1 review
Molecules	1 review
Industrial & Engineering Chemistry Research	1 review
Environmental Nanotechnology, Monitoring and Management	1 review
Journal of Material Cycle and Waste Management	1 review

14. Information on participation in European or other international programmes - not applicable
15. Information on participation in research teams realizing projects other than those defined in section II.9 - not applicable
16. Information on membership in the teams assessing applications for financing of research projects, applications for scientific awards, applications in other competitions of scientific or didactic character - not applicable

III. INFORMATION ON COOPERATION WITH SOCIAL AND ECONOMIC ENVIRONMENT

- 1. List of technological works - not applicable**
- 2. Information on cooperation with economic sector**

In 2014-2015, I was a contractor in the NCBiR BLUE GAS project - Conspan-BlueGas - a technology for purifying flowback fluids after hydraulic fracturing of gas-bearing shales with the possibility of water reuse and metal recovery. The leader of the consortium (Pyrocat-PIG-IChTJ) was Pyrocat Catalyse World sp z o. o. As a contractor, I cooperated with enterprise, I was carrying out the laboratory tests conducted in order to develop guidelines for a prototype installation enabling the cleaning and reuse of flowback fluids resulting from hydraulic fracturing.

In 2021, I started cooperation with Biopolimex Sp. z o. o. Together with foreign partners, IChTj and Biopolimex Sp. z o. o. submitted an application to the ERAMIN3 program, which was positively assessed. In May 2022, we started the project "Phosphogypsum Processing to Critical Raw Materials" PG2CRM. One of the project "Recovery of critical raw materials from phosphogypsum" is the development of an innovative process of REE recovery from phosphogypsum and the use of the remaining gypsum matrix as an inexpensive building material. The international consortium also includes the German company ALFERROCK GmbH, with which it also cooperates in the project.

In 2019-2020, I was a member of the team working on the report entitled "Preparation of a design for the construction of an experimental radioactive waste incineration installation" (consortium of ZUOP - Radioactive Waste Management Plant - State Enterprise, ICHTJ - Institute of Nuclear Chemistry and Technology, IChPW - Institute for Chemical Processing of Coal).

3. Obtaining the right of industrial property, including the national or international patents granted

National patent:

G. Zakrzewska-Kołtuniewicz, K. Kiegiel, A. Abramowska, D.K. Gajda; W. Łada, Instytut Chemii i Techniki Jądrowej, *Sposób wytwarzania oktatlenku triuranu z roztworów o niskiej zawartości uranu, (Method for producing ammonium diuranate from the solutions with low uranium content)* Polish Patent **236018**, Patent Office News, 19/2020, Patent Office of the Republic of Poland, November 30, 2020.

4. Information on implemented technologies- not applicable

5. Information on performed expert analyses or other studies prepared on request of public institutions or entrepreneurs

1. G. Zakrzewska-Kołtuniewicz, K. Kiegiel, A. Miśkiewicz, S. Sommer, O. Roubinek, D. Gajda, A. Abramowska, P. Kalbarczyk, I. Bartosiewicz, *Niekonwencjonalne źródła uranu w Polsce* (Unconventional sources of uranium in Poland), Expert opinion prepared under contract no. IV/758/P/15004/43902/DEJ, Warsaw 2015. Analysis commissioned by DEJ, Ministry of Economy

2. A. Bojanowska, M. Brykała, D. Chmielewska-Śmietanko, L. Fuks, D. Gajda, P. Kalbarczyk, I. Herdzik-Koniecko, **K. Kiegiel**, A. Miśkiewicz, J. Narbutt, H. Polkowska-Motrenko, M. Siwek, W. Starosta, T. Smoliński, K. Skotnicki, S. Sommer, D. Wawszczak, G. Zakrzewska-Kołtuniewicz, D. Miernicka, M. Banach, A. Grzegrzółka, G. Kuciel, M. Kwaśniewski, *Postępowanie z odpadami promieniotwórczymi i wypalonym paliwem jądrowym w Polsce – stan obecny i perspektywy (Management of radioactive waste and spent nuclear fuel in Poland - current status and prospects)*, opinion prepared under contract no. 156/II/P/15004/4390/17/DEJ as. "Analysis - management of radioactive waste and spent nuclear fuel in Poland - current status and prospects", Warsaw, December 2017, Analysis commissioned by DEJ, Ministry of Economy.

6. Information on participation in expert and competition teams - not applicable.
7. Information on artistic projects realized in non-artistic environment - not applicable

IV. SCIENTOMETRIC INFORMATION

1. Information on the Impact Factor (in the fields and disciplines in which this parameter is commonly used as a scientometric index)

The articles published after the award the PhD degree

Summary IF: **42.676/83.51**

The articles published prior to the award the PhD degree

Summary IF: **0/2.164**

2. Information on the number of citations of the applicant's publications, including a separate list of self-citations.

The articles published after the award the PhD degree:

Total number of citations numer/without self-citations: **316/289^{a)}**

The articles published prior to the award the PhD degree:

Total number of citations numer/without self-citations: **22/20^{a)}**

^{a)} Total number of citations based on the Scopus database/number without self-citations
The direct number of citations without self-citations, unavailable for the database, was calculated indirectly (as of April 14, 2023)

3. Information on h-index held

H-index = **12**

4. Information on the number of the points awarded by the Ministry of Science and Higher Education

The articles published after the award the PhD degree

Summary MNiSW points publication year/2021= **1226/1925**

The articles published prior to the award the PhD degree

Summary MNiSW points publication year/2021= no data/**40**
